Director of Public Works

STORM REPORT JANUARY 4, 2008 TO JANUARY 7, 2008

The storm that began on Friday, January 4, 2008, passed early this morning. As of 6 a.m. on January 7, 2008, the storm produced total precipitation amounts as follows:

Downtown Los Angeles	2.36 inches
San Gabriel Mountains	8.88 inches
San Gabriel Valley	4.40 inches
Santa Clarita Area	4.08 inches
San Fernando Valley	1.90 inches
Malibu	6.60 inches
Antelope Valley	1.36 inches
Catalina	2.40 inches

Our Flood Maintenance and Road Maintenance personnel continue to monitor flood control facilities and road conditions. Dams are holding water, and spreading of water for water conservation has been initiated. Over the weekend, we conserved 8,700 acre feet of stormwater runoff in our spreading grounds and impounded 5,700 acre feet in our reservoirs.

Please refer to Attachment A for a listing of road closures and estimated reopening dates for unincorporated County areas. This listing appears on Public Works' website (<http://dpw.lacounty.gov/rmd/roadclosure/results.cfm>). Please note that there are other road closures shown on the list that are not related to this storm event.

We continue to monitor the recent Corral, Malibu, Topanga, and Harvard fire areas. We are also monitoring any potential landslide movement at Hume Road in the Santa Monica Mountains, Montellano Avenue in Hacienda Heights, and Plum Canyon Road in the Santa Clarita area. We have no major incidents to report at these locations.
